WEEK 4 RECAPS

ALL FINAL

White Guy 136.92 Ceedeez La DD 104.90
Logan's first win, and the commissioner would like it noted that he played the whole game with **no quarterback**. The QB slot sat empty while Drake Maye (26.16) and Tyler Shough (15.94) watched from the bench, next to LaPorta (22.4) and Vele (17.4). Kelce gave 3.5, Saquon 2, McConkey 0. Optimal lineup: 178.36. CeeDee went for 41.3 for the team named after him and still lost. Logan got Higgins 26.7, Burrow 23.72 and 18 from Ollie Gordon II, the guy he dropped Achane for. The brand is dead. The 61.86 era is over.

Just missing 9 146.00 OG Token 91.20
Father-Son Bowl goes to the son by 54.80. Tetairoa McMillan dropped 45.2, the best game of the week, on a 15.85 projection. Kirk Cousins, picked up midweek for C.J. Stroud, threw in 22.6. Dylan did it without Jefferson, Daniels, Etienne or Dowdle. Ken finally started the right QB (Mahomes, 17), so of course Chase gave him 5.7 on a 20.43 projection. Even his optimal 106.0 loses.

Mr Steinfeld And Co 16112 Pookie Nacuie 98.26
Week high. Kyren Williams 36.7, Zay Flowers 25.8. Josh Allen had 18.52 on a 22.23 projection, which this paper blames on the weather and on Justin's general energy. The MVP still won by 62.86. Derek's first loss, and Kamara (22.8) sat on his bench while Parker Washington gave him 2.

I Don't Know 139.30 Better luck next time! 84.74
Nico Collins, started at zero in Weeks 2 and 3, finally showed up: 30.8. Bijan 27.7. Nate left Monangai's 28 on the bench and won by 54.56 anyway. Jeremy started waiver adds Marcus Mariota (5.34) and the Jets D/ST (0) with Bo Nix (13.56) on his bench. Rashee Rice: 0. Week low.

Njigbas in Paris 114.18 103.02
JSN was quiet (12.6) so Judkins (21.6) and Fairbairn (16) carried. Tommy got 30.9 from Kenneth Walker but started Montgomery (4.3) and Schultz (2.9) with Loveland (11.7), Gainwell (10.7) and Pickens (9.5) sitting. Best lineup was 120.02. Self-inflicted.

SKATTABUBU 126.78 Backshot Brandon 105.58
Sarah started Goff (20.48)! Left just 8.6 on the bench, and the one mistake was starting Skattebo (7.6), her own team's namesake. Connor started DeVonta Smith on a 0 projection (0 points) and benched Brian Robinson Jr. (25.7). That swap alone wins it.

BY THE NUMBERS

WEEK 4

73.46 left on the commissioner's bench. League high this week, by 38.6.
10 self-inflicted losses in four weeks. Matthew, Connor, Ken: two each.
118.9 season bench points for Matthew, passing Sarah (114.1) for the league lead.
9, 3, 9, 2. Saquon Barkley's season, line by line.

AWARDS

WEEK 4

PLAYER OF THE WEEK Tetairoa McMillan (Dylan), 45.2. Nearly triple his projection, and the reason the Father-Son Bowl wasn't close.
THE EMPTY CHAIR Matthew. No QB started. 73.46 left on the bench, Maye's 26.16 included. The commissioner's office has ruled this a bold zero-QB strategy that was ahead of its time. Appeals denied.
HEART-BREAKER Tommy. Closest loss of the week, by 11.16, with 17 on the bench. Best lineup (120.02) beats Jonny.
STARTED A GHOST Connor. DeVonta Smith, 0 projection, 0 points. Nate's handing the title over.
WAIVER WIRE MALPRACTICE Jeremy. Claimed Mariota and the Jets D/ST off waivers, started both, got 5.34 and 0. Bo Nix (13.56) and Jake Bates (18) on the bench. 34.82 left.
BACK FROM THE DEAD Nico Collins (Nate), 30.8. 0, 0, 30.8. Nate never stopped starting him. Faith rewarded.
NEARLY PERFECT Justin, 2.8 left. Week high, cleanest lineup in the league.
LEAGUE MVP (UNBIASED) Josh Allen. 18.52 in a 62.86-point win. A down week by his standards, so weather or Justin. The man himself is blameless.

TRADE REPORT

WAIVER WIRE EDITION

Trades processed: 0
Four weeks, zero trades. It's a family league where nobody trusts family.
Dylan: + Kirk Cousins, - C.J. Stroud
WINNER Cousins: 22.6 the same week. Plus Packers D/ST (10). Best pickup of the week.
Logan: + Ollie Gordon II, - De'Von Achane
WORKED Gordon gave him 18 in his first win. Also churned Mayfield into Tyreek Hill.
Jeremy: + Mariota, Jets D/ST, Shrader
VERDICT Shrader kicked 16. The other two combined for 5.34. Still the most moves in the league.
Also
Ken added Bears D/ST (9) and Waller (6.6). Tommy added four guys, Bucs D/ST got 7. Jonny took Ravens D/ST (7). Connor and Justin: still zero moves.
